Armed Robber, Burglars Hit In Area

Supermarket Robbed; Seven Homes Looted Of Cash, Appliances

An armed bandit, struck at a local supermarket and burglars looted seven Quad-City homes in a series of weekend crimes reported to area authorities since Thursday.

A lone bandit who pushed a loaded grocery cart up to the cashier cage, showed a note at the woman cashier and pointed a gun at her was handed currency amounting to about \$600 at 6:30 p.m. Friday at National Foods store here.

Although between 60 and 70 persons were in the store, not even these a few persons were aware of the stickup, and the bandit, with the money in a small paper bag, walked out unnoticed.

The note handed to Mrs. Gloria Blackwell, cashier, was written in ink on a small slip of paper. It read:

"Notice. This is a hairspring trigger. Make one move other than cooperative and your dead. Think. Don't be dumb."

The bandit also told her several times, "Don't make any moves. Just give me the money."

Police Need Witnesses
Police are hopeful someone saw him on the parking lot as he was making his get-away. So far no clues have been offered.

The robber was wearing a light jacket, a black hood cap and dark glasses and appeared to be about 5'6" feet tall, weighing 145 pounds.

A jacket that was identified as the one worn by the bandit was found about midnight on Granite City Steel Co. 20th street parking lot. It contained a holdup note on the same type of paper, but the wording was printed instead of being written.

Police dusted the cashier cage for fingerprints along with several items that were in the bandit's shopping cart. His selection included a package of hair conditioner, a bottle of shampoo, an all-ribber football in a box, a can of after shave spray, a head of lettuce, two bunches of onions, a \$2.17 package of ground beef and a package of chicken breasts priced at \$2.02.

Police were told the bandit had a large gun, possibly a .45 caliber automatic, and a sawed-off shotgun that he had hidden under the jacket.

Loot Exceeds \$600
Loot valued at more than \$600 was hauled out of the home of Mrs. Christine Bawiec, 2036 Beckwith street, Madison, in a burglary that occurred between 8:30 p.m. and 10 p.m. Saturday, Madison police reported. Entry was gained by forcing open the door.

3-City Street Program Proposed

GC, Madison, Venice Plan Joint Action With 50% U. S. Funds

Proposal for a joint street development plan by Granite City, Madison and Venice under the federal government's new TOPICS program—the first in which federal funds have been made available for improvement of city streets—will be discussed by officials of the three cities in cooperation with Illinois Highway Department engineers, it was reported today.

Detailed procedure for obtaining federal money, which is distributed through the state on a 50% matching basis, was discussed here Thursday in a meeting attended by Quad-City area mayors and representatives of the highway department in charge of developing state-wide TOPICS programs.

Attending the session in Mayor Donald Patterson of Granite City, Mayor Nelson Tabor of Madison, and Mayor John E. Lee of Venice and Mayor Stephen Maestas of Madison. Nelson Tabor, of the Illinois Division of Highways at Springfield; John Kusior, assistant district roads engineer of Illinois Highway District 8 at French Village; Larry Wieshaar, TOPIC engineer from the Bureau of Local Roads at Springfield.

Projects are Limited
The program—known as Traffic Operation Program to Improve the Capacity and Safety of City Streets—primarily is limited to projects that will improve the movement of traffic, relieve congestion, and to improve safety of city street traffic.

This would include such projects as installation of traffic signals, channelizing intersections with medians and left-turn bays and the widening of intersections. It does not provide for new paving construction.

While the current freeze on highway funds by the federal government in Madison and St. Clair county includes the TOPICS program, highway engineers have suggested that communities in these two counties work out their programs immediately so that they could be carried out as soon as the freeze is lifted.

Lifting of the freeze, which has been in effect since Thursday at St. Elizabeth Hospital.

Rev. Robert Bauman, 2103 Cleveland blvd.; David L. Johnson, 4124 Melrose avenue; Alma J. Close, Edwardsville; Tula M. Doty, 2321 Edison avenue; and Robert A. Voss of 5 Rose lane.

Gym Building, Holiday On GC School Agenda
Planning of a gymnasium building, a decision on the Christmas holiday vacation period and action on bids are scheduled at a meeting of the Granite City school board at 7:30 tonight.

Also listed are a report on rapid reading, requests for facilities and action on employee tips.

Firemen Find 2 Fires Answering One Call

Venice firemen found two fires while answering one alarm Thursday afternoon—both of them weed fires that resulted in damage to utility poles.

Firemen said they were called at 1 p.m. to the foot of Washington avenue near Hyman-Michaels Co., where weeds were afire and had enveloped a utility pole. After extinguishing the fire, the firemen saw another blaze in the Terminal yards, several blocks distant, where flames were burning two utility poles, one pole carrying a high tension wire. The firefighters were at the scene of the two fires more than an hour.

At 5:10 p.m., Venice firemen were called to another weed fire in the Terminal yards near the Broadway viaduct. They were there the scene 15 minutes. There was no damage.

In a discussion that lasted more than an hour, Hampton reportedly attacked a recent planning study made by the Southwestern Illinois Metropolitan Area Planning Commission for the city of Hampton, which is rated for construction of new fire stations and a city hall over the past weekend.

On Plan Commission
Mayor Lee, however, pointed out that Hampton himself is a member of the City Planning Commission which is the body that will study the SIMAPC report and make any recommendations to the council for action on the study. Mayor Lee said the SIMAPC report is nothing more than a study.

Area Officials To Testify on Crossing Delays

City officials of Granite City, Madison and Venice will attend state commission hearings scheduled in East St. Louis tomorrow and Wednesday to hear complaints about delays at railroad crossings, it was reported today.

Hearings are set for 10 a.m. tomorrow and at the same time on Wednesday in the council room of the East St. Louis city hall by the state's Railroad Grade Crossing, Blocking Railroad Grade Crossing Separation Investigative Commission.

Mayor Donald Partney and City Atty. Leon Scroggins of Granite City plan to attend the hearings and Partney said he hopes to make his presentation in tomorrow's session. Partney said he has compiled considerable material from police records of train crew arrests and traffic blockages resulting from long delays by trains at local crossings.

Mayor John E. Lee of Venice and Mayor Stephen Maers of Madison said they hope to be able to attend one of the two sessions personally, but that their cities will be represented in any event. Venice has a particularly long record of crossing delays at Broadway near Main street where tracks of the Pen-Central, Norfolk & Western and GM&O cross Broadway.

Ronnie J. Palmer of Blue Island, chairman of the commission, said anyone with prepared statements should have 11 copies, one for each commissioner.

Injured 'Copter Pilot On Convalescent Leave

Capt. Randall L. Fields, 23, a U. S. Army helicopter pilot who was seriously injured on Oct. 14 when his aircraft was shot down and crashed on a mountain-side near Phu Bai, Vietnam, arrived home last week on convalescent leave.

Fortunate to survive the crash, which totally demolished the 'copter, the officer said he felt even luckier Tuesday when he was reunited with his wife, the former Miss Mary E. Roberts and he saw his three-month-old daughter, Anissa, for the first time.

The couple resides at 845 Alton avenue, Madison. Capt. Fields' parents are Mr. and Mrs. Lloyd Fields, 3040 Denver street.

Capt. Fields arrived in Vietnam on June 14 and was assigned to the 101st Airborne Division, based near Phu Bai, a point midway between the demilitarized zone and Da Nang. The crash occurred about ten minutes flying time from the base while he was engaged on his second mission of the day.

Five bullet holes were found in the engine of the aircraft. The three-man crew was brought in by ground troops who got to the wreckage about one hour after the crash.

The officer sustained a compressed fracture of a vertebrae in the lower back. He was hospitalized, initially, at a military facility in Japan before evacuation to a hospital in the U. S. Because of the nature of the injury, Capt. Fields was unable to move, at first, but quickly responded to treatment and became capable of moving his legs and toes within days of the crash.

He is now able to walk and is "getting around quite well," according to his family. On completion of his furlough, the officer will report to Fort Knox, Ky.

Capt. Fields enlisted in the U. S. Army Air Force in February 1966 and completed flight training and received his commission and pilot wings on April 8 at Fort Rucker, Ala. Earlier in his Army career, the serviceman and his wife spent one year in Germany.

He was graduated in 1964 from Granite City high school and attended Southern Illinois University. Capt. Fields was employed by Southwestern Bell Telephone Co. in St. Louis prior to entering the Armed Forces.

Mrs. Fields is a daughter of Mr. and Mrs. Anthony Podnar, 1222 Grand avenue.

Jaycees Preparing for Children's Party

A busy Christmas season is scheduled by the Granite City Jaycees whose schedule ranges from children's parties at the local hospital to special projects for the needy, plus continued operation of year-around programs already established.

Stanley Noe, local Jaycee president, today announced that members of the young men's service club will sponsor their traditional Yuletide party for children at St. Elizabeth Hospital on Monday, Dec. 22. The party will include a visit from Santa Claus and entertainment.

Jaycee Wayne Worthen, serving as this year's hospital party coordinator, said today the two-hour event will start promptly at 6:30 p.m. Dec. 22, in the hospital's pediatric ward. Assisting Worthen with arrangements are Ron DeGonia and Noe.

Santa Claus will present gifts to the young patients, who will be entertained with a puppet show, a performance by a magician and the antics of the Jaycee clowns.

Morris Miles, a former Jaycee and a Pepsi-Cola Co. supervisor, has arranged to have soft drinks for the party donated without cost, and cookies and other Christmas fare will be furnished by members of the Jaycee organization, Worthen said.

In addition to individual gifts for each child, the Granite City Jaycees will present several plastic crib covers to St. Elizabeth Hospital.

The clear plastic covers are used to prevent agile toddlers from climbing over crib rails and replace a netting device which is considered less effective.

Another annual project planned for immediately prior to the Christmas holidays, involves escorting children from

deprived families on personal shopping trips at the Jaycees' expense. Names of the youngsters usually are obtained from the Salvation Army.

The participating children are allotted a specific sum of money with which to make their own selection of Yule gifts for parents or other family members. The shopping excursions take place in the local community.

Christmas baskets, filled with canned goods and similar gifts, also are prepared for needy families at Christmastime, a project undertaken by the club during the Thanksgiving season also.

Most of the funds needed to support the Jaycees' Christmas programs are derived from the chapter's annual "Bowling Sweepstakes," a project that concluded yesterday at Tri Mor Bowl and Bowling Lanes.

League bowlers compete for cash awards while contributing an entry fee. The \$1 fee is partially returned to contestants in prize money, with the remainder used for the charitable endeavors of the club, Noe explained.

Several Jaycee and Jaycette members also assisted Saturday at St. Elizabeth Hospital's monthly immunization clinic, while others are continuing to complete details on the recently announced "Veteran's Assistance" program, through which returning members of the Armed Forces will be offered various forms of assistance to re-integrate them into the community, or aid the men in finding employment, if necessary.

Amid the chapter's community service projects, Jaycees also are planning their own club Christmas party, Noe reported.

The event is scheduled to take place Saturday, Dec. 20, at the Rose Bowl restaurant. Dinner and dancing are on the evening's festive agenda, the president said.

Trojans Lose to Cahokia 78-58

The Trojan Cagers bowed to Cahokia 78-58 Friday at the MHS gym.

Madison Coach Larry Graham summarized, "Two things killed us. Errors and missing free throws."

"We turned over the ball 27 times during the game. Many of the times we gave the ball away in the back court. Three or four times it meant Cahokia had to take two or three steps for a layup."

"In the first quarter," Graham pointed out, "we missed nine free throws. The quarter score was 14-14. We could have pulled ahead in the beginning and it would have been an entirely different ball game."

As the game progressed Madison fell farther behind. At intermission, the score was 41-32 and after the third quarter 60-42.

Mike Howard led Cahokia's tallying with 32. Joe Dozier was hottest for the Trojans, sinking 20.

Other individual Trojans put in: Douglas Griggs 11, Oscar Hagler 8, Larry Boyd 5, Tom Noel 4, Phillip Davis 4, John Ervin 2 and Charles Pogorelac 2.

Warriors Drop Squeaker to Kahoks

One second before the final buzzer sounded, Collinsville's Jerry Ahart with his team unable to work the ball in close to the basketball, sank a turn-around jump shot to defeat the Granite City Warriors 65 to 63 Friday evening at Collinsville.

Collinsville, because of their tall veteran players and transplant student Ahart, was favored to drub the relatively short and limited in experience Warriors.

The six-foot-four forward Ahart played last year on the Southwestern conference champion Edwardsville team and averaged 15 points per game. One month before the current cage season began, Ahart's family moved to Collinsville over a dispute with Tiger Coach Bob Gregor concerning their son's Afro hair style.

So, why was Granite City at halftime leading 32-27? Coach Don Deterding said it was a "Through hustle. Our lack of height hurt us near the basket, but my players positioned themselves properly and rebounded well."

"I told the team before the game, if we hit 50% from the field we would win. We shot 46%, Collinsville hit the better percentage (36%)."

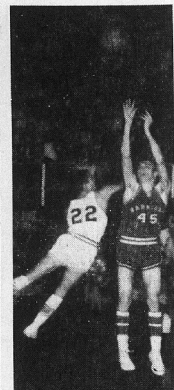

The Warriors' defensive press snatched the ball 22 times while the widely-respected Kahoks' press forced 17 turnovers. Deterding explains where this made a difference, "The inexperience of our guards was showing when we were trailing 13-10 after the first quarter. They gained confidence as the game went on. As our defense became more consistent, our offense picked up."

The Granite City coach gives assurance, "I was proud of the team. As proud as any coach can be after a loss. The boys took the defeat quite hard. The next time we won't turnover the ball as much and I hope we can make Collinsville lose the ball 22 times again."

By the end of the third quarter Collinsville had moved to a nipping 47-46 lead. Following halftime, the Warriors had missed some easy shots and the momentum shifted slightly to the Kahoks. The Kahoks, led by center, Bob Shapiro, had a string of eleven successful free throws as part of his team leading 27 points.

The final quarter threw the sell-out crowd into a din. The scoreboard showed a tied score four times and the lead changed on six occasions.

With a minute and 59 seconds remaining Warrior Steve Harris flipped in a short shot to narrow Collinsville's lead to 63-61.

The teams then exchanged the ball six times with no additional scoring, and then Harris was fouled while driving for the basket.

Seven seconds remained on the clock. If Harris would have tied the score he would have had to make both free throws. If he missed one free, the game would almost surely belong to center, Bob Shapiro, had a string of eleven successful free throws as part of his team leading 27 points.

But, the referees signaled that Harris had two more chances. Coach Deterding called timeout.

As Harris was throwing the ball a Kahok had moved committing a territorial infraction. The Collinsville crowd created a deafening roar as Harris tossed twice to tie the game.

In the final seven seconds, the Warrior press held the tall Kahoks from nearing the basket. But Ahart, who usually shoots only when close to the basket, sank a shot at 20 feet from the hoop.

Individually, the Warriors totals were: Dave Melzer 22, Harris 16, Tim Moore 16 and Jeff Boyles 9. Tim Schwendeman played but did not score.

MRS. JIMMIE LUCKSHIS, the former Miss Cheryl Culberk, whose wedding took place Saturday.

Luckshis-Culberk Nuptials At St. Elizabeth Church

Miss Cheryl Culberk and Jimmie Luckshis were married Saturday afternoon at St. Elizabeth Catholic Church.

The bride is a daughter of Mr. and Mrs. Anthony Culberk, 289 Spalding avenue. Mr. Luckshis' parents are Mr. and Mrs. Anthony Luckshis, Route 7, Edwardsville.

White bows marked the pews along the aisle through which the procession passed, the bride escorted by her father who gave her in marriage. The Rev. Virgil Munk officiated at the 5:30 ceremony which was followed by a reception at Holy Trinity Church Hall in Madison.

The bride wore a white brocade Empire gown with a scoop neckline, long sleeves and a lengthy train. A pleated down the center front of the gown was trimmed with brocade and a fingertip veil of nylon edged with a wide band of lace was held in place with a crown of petals, pearls and rhinestones. A cascade of pink and white roses was carried by the bride.

The organist was Mrs. Francis Judd. The attendants, Miss Jeanette George, maid of honor, and Miss Toni Culberk, a sister of the bride, and Miss Jane Poole, bridesmaids, were dressed alike in Empire gowns of hot pink chiffon, floor-length, with Venice lace collars and cuffs.

They carried white roses, leather leaf foliage, and wore matching pink veils. Paul Hornberger, a brother-in-law of the bridegroom, was best man, and Robert Culberk,

the bride's brother, Roger Lemons, Tony Culberk, brother of the bride, and Tony Luckshis, the bridegroom's brother, served as groomsmen and ushers.

For her daughter's wedding the bride's mother was in a dress of cameo crepe with blue accessories, while the bridegroom's mother chose a blue dress and a lace coat with matching accessories. Their fathers were corsages of chrysanthemums.

The guest book at the reception was in charge of Miss Janice Reinhardt.

The bridegroom, a graduate of Granite City high school, is employed by the Granco Steel Co.

The time was spent at cards, and prizes were won by Mrs. Doris Thompson, Mrs. Norma Powell and Mrs. Shirley Brown. Also attending were Mrs. Arlene Laub, Mrs. Arlene Morley and Mrs. Bette Rea.

The refreshment table was centered with a sleigh and candy canes and the canes served as favors. Also carrying out the holiday theme were tall white candle, holly and other reminders of the season.

The next meeting will be held Dec. 18 in the home of Mrs. Thompson.

Backs Bill to Help Cut Juvenile Crime

Cong. Melvin Price (D-East St. Louis) has joined with other congressmen in the introduction of a bill which would create the Institute for Continuing Studies of Juvenile Justice and is designed to "strike at the very heart of crime." It was reported in Washington.

Cong. Price said the legislation "represents a new approach to attacking the root causes of recidivism so far as juvenile offenders are concerned."

The proposed institute would provide a two-pronged attack he said, the first setting up means of disseminating information and expertise in the field of juvenile delinquency treatment and control. The second, Price said, would provide an academy to offer training by experts for local law enforcement officers, judicial personnel, welfare officials, correctional officers, probation officers and others connected with the treatment and control of juvenile offenders.

"I am convinced that juvenile crime is one of the most pressing and threatening aspects of the crime problem," the congressman said. "Failure to deal effectively with criminals and failure to deal effectively with the causes of crime has become a near disaster for this country. Since 1944, crime has quadrupled."

He entered the army in November 1968, completed basic training at Ft. Leonard Wood, Mo., and arrived overseas in May 1969. He holds the Combat Infantryman's Badge.

Local GI on Patrol in Vietnam with Sentry Dog

When Quad-City families are gathered together this Yuletide enjoying the traditional seasonal and the warm companionship of loved ones, a youthful soldier from Pontoon Beach will spend his Christmas paroling a lonely sector in Vietnam, accompanied by his Sentry Dog.

In his first few weeks in Vietnam, Ron Jacobs, 20, a son of Mr. and Mrs. Edward Jacobs, 4201 East Lake drive and husband of the former Miss Barbara Perkins of Madison, is being guided, literally, step-by-step by a huge German Shepherd dog, a veteran of five previous combat tours in Vietnam.

Mutual trust and affection between a comparative newcomer to Vietnam action and an "old" combat veteran—King Lion—is the important factor behind the safety of many other U. S. servicemen, whose lives the pair protects from infiltration attempts by the Viet Cong.

Assigned Near Saigon
The local serviceman arrived in Vietnam with his canine companion just five weeks ago. He is assigned to the 21st Military Police Detachment (Sentry Dog Unit), in the vicinity of Long Binh, not far from Saigon.

According to a recent letter, the pair was guarding an ammunition dump and installation in the Long Binh area. Jacobs was selected for the assignment following an intensive training period with King Lion, which started in September on Okinawa.

Soldiers are chosen to serve with a Sentry Dog unit after completing basic and advanced military training. Those selected are introduced to the animals at the U. S. Army's special training center on Okinawa, where the man and the dog are trained in union until they become inseparable.

Completely Re-Trained
Animals which have served with other soldier-masters, whose service time in Vietnam has expired, are brought back to the Okinawa base and completely re-trained with a new master, the local GI explained. Dogs unable to be rehabilitated or re-trained because of excessive nervousness, resulting from overtraining, or those whose viciousness cannot be controlled, must be destroyed, he said.

Noting in a letter home that he "is now very confident about my dog who is extremely alert and sensitive to every sound," Jacobs said it was thought in-

One of the Army badges that soldiers wear with special pride is the Combat Infantryman Badge. It was awarded to Pfc Laswell, son of Mr. and Mrs. Philip Laswell, 2609 Cayuga street, is assigned as a rifleman with Company A, 1st Battalion of the 4th Infantry Division's 8th Infantry. Pfc Laswell entered the Army in March 1969, completed basic training at Ft. Leonard Wood, Mo., and arrived overseas in August 1969. He was graduated from Granite City high school in 1967.

John Petish Elected Pontoon TT President

John Petish, son of Mr. and Mrs. John Petish, 2357 Carleton avenue, was elected president of Pontoon Gators Teen Town during a weekly dance session last week at Long Lake fishermen's hall.

Petish was selected by secret ballot from five candidates. He is the first president to head the Teen Town since the group was re-organized under the auspices of the Pontoon Ladies Auxiliaries.

Four teenagers also elected last week will comprise the Teen Town board of directors to work with the adult leaders in community service projects.

Those named were Vicki Littlejohn, Sharon Jones, Rusty Melford and Sandy Stein.

About 125 young people took part in the election and attended a dance which followed. Music was provided by a local teenage group, "The Revelators."

Teen Town members attending weekly dances prior to the Christmas holidays are being asked to contribute a canned food item or package of dry, staple food the evening of each dance. Donations will be used in the preparation of Yule baskets for distribution to families in need, a youth club spokesman said.

The continuing need for clothing up to size 14 was reported this week by Mrs. Francis Davis and Mrs. Lester Webb of the Nameless Methodist Church Lydia circle, who meet needy families at the CYS by appointment to fit the clothing to the youngsters who will wear it.

Amsted Sales, Order Backlog Hit New High

Amsted Industries, Inc., which includes the Granite City American Steel Foundries, had a backlog of \$66 million in orders at the end of its fiscal year Sept. 30, compared with \$53 million at the same time a year earlier, Joseph B. Lanterman, board chairman, announced in the company's annual report to the stockholders. The higher backlog of orders for powdered metal parts, pistons and new freight car components accounted for the increase, Lanterman said, adding that "prospects for the coming year are bright in most product areas, and income in 1970 is expected to exceed that

of 1969, barring significant slow-down in the general economy." Amsted's sales reached an all-time high in fiscal 1969 of \$261 million, an increase of about 12% from \$233.3 million in 1968, the report showed. This was the first year in the company's history in which sales exceeded a quarter of a billion dollars. Earnings in 1969 amounted to \$10,026,000, or \$3.62 per share, compared with \$9,755,000 or \$3.55 per share a year earlier.

Area Prospects Bright GC Optimists are Told

Reviewing a survey, completed by Southwestern Illinois Metropolitan Area Planning Commission related to the Quad-Cities and surrounding area, Charles McKinney, SIMAPC staff member, said Thursday that all indications point to an excellent future if the area's potential is developed and promoted by its business and community leaders.

Speaking to members of the Granite City Optimist Club at a luncheon meeting Thursday in the Rose Bowl, McKinney noted the geographic locale of the four local communities has many advantages. He pointed out the location here of SIU-SW and the prospects of a new metropolitan airport.

It is necessary, McKinney urged, for all local citizens to promote the assets of this area. "The future is excellent for Madison and St. Clair counties, only if we are prepared to sell the area ourselves," he commented.

Thursday's program was arranged by Howard Colquhoun, Chamber of Commerce executive, with the guest speaker introduced by H. D. Karandjeff, Thirty Optimist members attended.

\$39,000 Short
Pledges now amount to \$366,000 in rounded figures, or \$39,000 under the goal, but \$3000 more than pledged last year.

During a meeting of directors following the joint session with agency officials, it was decided that the United Fund admissions and distributions committee will allocate the \$366,000 to the 20 participating agencies. The committee, headed by Paul Kemp, plant manager at A. O. Smith Corp., is to meet in the near future, it was reported by H. D. Karandjeff, UF board president.

In discussing the current campaign with all those present in the auditorium of the YMCA, Konzen pointed to weak areas of the drive. "These need bolstering and we need to work in new areas," he stated.

Enthusiasm—But!
"You can call this a critique, and if we are aware of the complaints, perhaps we can build a better organization. Those of you who actively participated in the campaign showed great enthusiasm, but let's face it — we didn't get the job done, and now we want to know why," Konzen told those present.

"We do have \$3000 more than we pledged last year and have the prospect for \$5000 to \$6000 more. All I can say is that we are still working in new prospect areas and have some hope," the campaign leader stated.

Following Konzen's review of pledges by divisions, Mathias called upon the agency representatives for suggestions in "selling the United Fund idea to all local residents."

Mathias said that if the present trend of campaign failure continues, "the United Fund won't be meaningful. The agencies will be unable to obtain sufficient funds to operate and will be going out on their own, and then we will have 15 or 20 or 25 drives each year."

Total Involvement
Melvin Gillie, who heads the Red Cross Chapter board, said the United Fun Fair was a new approach to involve the community in the campaign. "But what we need is total involvement," he stressed.

A. H. Froemling suggested more emphasis on "Fair Share Giving," and an all-out request for added funds on a public appeal basis was recommended by Mrs. Ruby Overbeck of the Red Cross.

Mathias said all suggestions will be taken up at a United

Venice Group

more than a report at this time because no part of it has been brought before the council for action.

"We (the council) can act only on what the plan commission recommends after its study of the report," the mayor said, adding that he agreed the suggestion for construction of two new fire stations in separate ends of the city is "rather silly."

The mayor then asked Hampton if he had attended the last several meetings of the plan commission.

Hampton explained he had received notices of the meetings after he had made "other commitments" and had not been able to attend.

Rejects Two Requests
Mayor Lee expressed a final negative response to two of Hampton's demands: the appointment of two black

to "higher echelon" city jobs and the other for an immediate increase in the ratio of black members of the city police force.

Hampton asked the mayor if the number of city jobs for blacks—those who are appointed by the mayor and confirmed by the council—could be increased. Mayor Lee replied that his appointments have been made for this year and no new appointments will be made until next April or May.

"Can you guarantee us that you will appoint more of our people when you make your appointments next year?" Hampton asked.

"I have no intention of discussing my appointments with anyone," Mayor Lee told him. Hampton then criticized the fact that "there are only three black people on the police force in a town in which more than 60% of the population is our people," and asked the mayor if this ratio would be increased.

Must Await Vacancies
Mayor Lee told Hampton and the delegation of ten other persons, most of them women, that police can be hired only as other members of the department retire.

"There's another way to do it," Hampton said. "That would mean increasing the police force and that is impossible," the mayor remarked.

After Police Chief John Essington informed the group that there are about four members of the present force that will retire over the next five years, Hampton commented: "I see. That means we have to wait five years to get another of our people on the police force."

In demanding passage of an open housing ordinance, Hampton said, "We are prepared by Monday to submit an open housing ordinance to the council. We have one prepared and it's just a matter of making copies."

The mayor said he believed the council would have no objection to an open housing law because the subject already is covered by state and federal laws.

"I see no reason why such an ordinance could not be brought up for action in the next council meeting," the mayor said. Hampton frequently addressed his demands directly to Negro members of the city council.

asking for their opinions on the subject he discussed. Four of the council's eight aldermen are Negroes.

This resulted at one point in a brief exchange of words between Alderman Louis Ratliff, a Negro, and Hampton, when Ratliff asked Hampton if he could "state any law that says you can't live anywhere you want to... the federal law says you can live anywhere."

Hampton replied, "We want the laws on the book and then maybe you (Ratliff) will join in the black community."

Not Enough Jobs
Hampton also complained that Venice black residents are not given sufficient jobs by Venice industries. He asked the council to request Union Electric and Dow Chemical Co. (soon to be merged Phelps Dodge Co.) to set up training programs for Negroes and to hire more black people.

He particularly criticized the Broadway underpass project contractor for not hiring blacks on that job, and said those who had been hired had been forced to quit because of embarrassing "harassment" from white co-workers.

had nothing to do with the underpass jobs since the present contracts are under jurisdiction of the state highway department and were awarded by the state.

He said the city has not yet called bids on its phase of the underpass work. The mayor did agree, however, to call Dow Chemical Co. and ask if more blacks can be employed there.

Will Be Back
In closing, Hampton summarized points of the hour-long discussion, remarking that "we lost a few and won a few" and said the group "will be back in a couple of weeks to learn what action has been taken."

In other action Friday night the council approved a report by City Treasurer Bernard Anderson showing expenditures of \$30,870 during November. Receipts amounted to \$81,668 which, with the old balance of \$104,995, brought total available funds to \$111,164. Payment of November bills, \$14,414, left the city with a cash balance of \$71,294.

The council also received a report by Henry McMullen, McKinley bridge manager, showing total bridge traffic of 248,465 vehicles, an average of 6282 vehicles per day. During November Bridge traffic included 61,700

Observed a key insurgent firing position," the citation states. "Sp/4 Douglas and a comrade dauntlessly advanced on the aggressor emplacement. After silencing the enemy fire, Sp/4 Douglas was painfully wounded and sought medical aid."

Return to Battle
"With complete disregard for his personal safety, Sp/4 Douglas returned to the point of heaviest contact and assisted his companions in routing the enemy force. His courageous initiative and intrepid determination significantly contributed to the successful defense of the base."

His Third Army Commendation medal was awarded this month for "exceptionally meritorious service in support of allied counterinsurgency operations in the Republic of Vietnam during the period of December 1968 to December 1969."

SIU-SW Plans Audition of Candidates for the 'Met'

Metropolitan Opera auditions for qualified candidates from southern Illinois will be held at Southern Illinois University-Southern campus Jan. 15, according to Prof. Lloyd Blakey, chairman of SIU's faculty.

The most promising contestants heard at the district auditions will be selected to compete in Chicago against other district audition winners from the central region on Jan. 27, Blakey said.

First place winner in the regional finals will be sent to New York during the week of March 18 to compete in the national semi-finals. The central region winner and those of 15 other regions will audition before general manager Rudolph Bing and his staff on the stage of the Metropolitan Opera House.

To qualify for the first auditions, an applicant must have resided in the southern part of Illinois or have studied in this district for the past 12 months, Blakey said, noting that if for geographical reasons it is more convenient for an applicant to enter auditions in a district or region other than his own, application for a transfer may be made through the director of the district.

List Age Categories

Applicants must be in the following age brackets: Sopranos, 17 to 20; mezzo-sopranos, 19-30; tenors, 20-30; baritone, 20-30; and basses, 20-33. All applicants must be accompanied by a photograph and a legal document giving proof of age. Blakey said that an applicant must have a voice with operatic possibilities, some voice training, musical background and artistic aptitude. Professional experience or finished training is not an essential requirement, he said.

Applications for Southern Illinois should be sent to Prof. Blakey, care of the music faculty, Southern Illinois University, Edwardsville 62025 no later than Jan. 7. Each application must be accompanied by a \$5 entry fee which are not refundable.

Co-sponsors of the auditions at SIU-SW are its Fine Arts Division and the SIU Friends of Music, with Mrs. Myron L. Morgan of Godfrey and Mrs. Glenn A. Gregory of Belleville as co-chairmen.

A. O. Smith Wins Top Safety Award Second Year in Row

Employees of the Granite City plant of A. O. Smith, Inc., have been awarded the National Safety Award for the Power Press and Forging section for the second year in a row, it was announced here today.

The safety competition is conducted by the National Safety Council and is open to all indus-

trial members of the council nationally.

The A. O. Smith Granite City plant placed first in the nationwide competition on the basis of the best safety performance during a one-year period and the total safe work hours since the last disabling injury occurred.

7.5 Million Safe Hours

When the award was received by the Granite City plant the operation here had completed more than 7.5 million safe work hours which at the present time is rated as the best performance in the nation.

Paul Kemp, plant manager at the Granite City auto frame plant, received the award during a presentation at the National Safety Council office in Chicago. The presentation was made by Howard Pyle, safety council president.

The A. O. Smith employees at Granite City also have received the "Award of Honor" which is the highest recognition obtainable for any safety performance. It was noted by the National Safety Council that a very small number of industrial firms ever meet the high requirements of the Award of Honor.

Safety Gifts Presented

During the work periods that the awards were won, safety gifts have been presented to the 1250 employees in recognition of their outstanding safety performance, plant officials said.

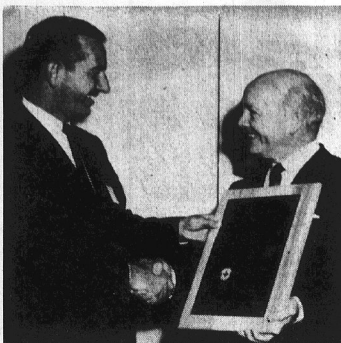

Safety awareness and acceptance of safety responsibility by all employees and supervisors is the key to the plant's accident prevention program, it was noted.

During the same period in which the Granite City plant qualified for the national award, 14 of the 19 A. O. Smith plants across the country received awards from the National Safety Council. In addition the Granite City plant, the Milwaukee works also received the Award of Honor; four plants received the Award of Merit; six received the Certificate of Commendation and two received the Certificate of Commendation and two received the President's letter.

NATIONAL SAFETY award for outstanding safety record that tops all others in the country is presented to Paul Kemp, left, manager of the Granite City plant of A. O. Smith, Inc., by Howard Pyle, president of National Safety Council. Presentation was made in Chicago after Granite City plant employees took first place in the nation-wide industrial competition.

West Pontoon Road Reopens at Route 3

West Pontoon road, closed since Oct. 1 for construction of a new intersection at Route 3, was reopened to traffic Thursday afternoon.

Removal of barricades at the Route 3 intersection and 500 feet east of Route 3 on Pontoon road opens Route 3 to regular north and southbound traffic.

Highway traffic was rerouted over the Great River Road (FA Route 151) during the intersection construction work. Grade of the intersection at Route 3 and Pontoon road was raised two feet and eliminates the incline before crossing the railroad tracks just off Route 3.

Completion of shoulder work on FA 151 is under way and highway engineers say they are shooting for a Jan. 1 target date for opening the highway to traffic.

MORE ABOUT Drugs Seized

dence they saw two young women go to an auto, obtain a package which they took back to the house, and later observed, about midnight, the arrival of a black auto. The driver of the car joined the group in Mangiaracino's home, officers said. Police reported that at the time they entered the house at about 12:30 a.m. Saturday, the two juveniles were crying.

Joined by three officers of the Madison force, the Venice officers knocked at the door about four times, but received no response, they said. They then walked in.

Police said there was a hypodermic needle and a syringe on a table, along with a small short-stemmed pipe covered with aluminum foil with pin holes in it. Also on the table, officers said, was a brown bottle containing pills and labeled "Phenobarbital, U.S.P. 32 mg. (1/2 gr.) (Barbituric acid derivative)." Officers reported that also on the table was a bottle containing a brown liquid substance, and in the kitchen they found a foil-wrapped package of what authorities said they believed is "Hash-Fish" which is a narcotic derived from the Marijuana plant.

Officers said they found a movie projector with a roll of stag film in the kitchen, along with two empty and one partially filled wine bottles. At the police station, officers said, the Powell girl gave them a green bottle containing six aspirin tablets and a yellow pill bottle which she believed to be "speed" and a plastic package containing three small pills. In the auto, which officers had seen the two girls obtain a package earlier, police found 16 packages of cigarettes that bore no tax stamps, they reported.

A search of Schade's car, police said, revealed a .38 caliber automatic pistol with eight rounds in the clip and one in the chamber, and a small box containing two foil-wrapped blue pills.

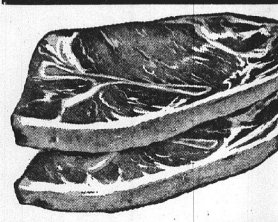

A representative of the Illinois Narcotics Bureau was to confer later today with Venice authorities to identify and classify the drugs found by the officers. Police said they also plan to arraign the defendants in magistrate court later today.

Grants Available to Aid Law Enforcement

Grants are starting to be received in Illinois under the 1968 Omnibus Crime Control and Safe Streets Act and additional funds are available if qualified local governments submit applications, it was announced today.

The city of Alton has obtained \$9375 for police training and the Southwestern Illinois Law Enforcement Commission covering Madison, St. Clair and Monroe counties has received \$19,800 for youth service. State action has not yet been taken on Granite City applications in the fields of community relations and police management.

The Illinois Law Enforcement Commission "Project Action Now" program disburses state and federal funds in the form of 100% grants to aid in planning and providing improved law enforcement, and colleges are cooperating in making available expanded police training opportunities.

Two Traffic Charges

Charges of speeding in the 1700 block of Madison avenue and disobeying a signal light at 26th street and Madison avenue were placed against William Sykes, 2335 Rock road, Sunday morning.

Three City

since mid-1968, has been indicated as likely in the near future.

Partney said he has been interested particularly in assurances by highway engineers that construction of an overpass on Niedringhaus avenue would be possible under the program. Traffic congestion on Niedringhaus avenue aggravated by frequent traffic tieups by freight trains, is expected to become a major problem after the state opens the Great River Road (Federal Aid Route 151) to traffic after the first of the year.

FA 151 Opening Jan. 1 The new stretch of the River Road extends from Niedringhaus avenue, at the entrance to the Granite City Army Depot, to a point just north of West Pontoon road. Target date for opening the highway to traffic is now Jan. 1.

As a result of Thursday's meeting, the mayors of the three communities agreed to obtain a cost estimate on the planning and study necessary to an application for funds. The cost estimate will be prepared by the engineering firm of Crawford, Bunte, Roden Inc., whose representative attended the TOPICS meeting held

Traffic Arrest

Grove Young, 2640 North street, was charged with an arrest ticket Sunday morning on a charge of disobeying a traffic signal light at 58th street and Madison avenue.

City License Charge

William H. Cook, 2508 Dale avenue, was charged with having no city license when issued an arrest ticket at 3:55 p.m. yesterday in the 1900 block of St. Clair avenue.

Thursday and Earlier This Year

Under the proposal, the three cities would share the cost of the study on a per capita basis. Motor fuel tax funds may be used for both the planning and for matching shares under any grants that eventually may be awarded.

The study would detail project costs, be undertaken under the TOPICS program and would provide financial data and other information necessary to applications for federal money.

Allocation of TOPICS funds is handled by the state. Earlier this year highway officials said the federal government has allocated \$35 million to Illinois for the 1969-70 year. With matching funds this will permit \$50 million in city street improvements.

No Direct Constitutional Power To Local Government in Illinois

(League of Women Voters of Illinois)

It surprises many people to learn that the Illinois Constitution does not have an article on local government.

It covers counties, mentions townships and has a separate article on Chicago, but it does not face the special problems of the cities, villages, school districts, park districts, drainage districts, etc., which are now so much involved in providing services at the local level.

Of course, there are many laws on the books pertaining to local government procedures and powers. But the constitution itself neglects this level of government except where it fixes bonding power and limits some taxes.

The desire for constitutional mention usually takes the form of a request for "home rule." This term is not well understood.

It does not mean independence for local governments. It does mean that under certain general laws, local governments would have greater powers to solve their individual problems.

Now, municipalities are creatures of the state, held to be arms of the state for the purpose of carrying out certain functions.

Many may believe they could more promptly, use more originality and serve their communities better if they had more powers. They still expect direction and guidelines from the state in the form of general laws outlining the

Some municipalities would like to have the power to tax, feeling that cities differ in their needs and therefore in their requirements for money.

They reason that if the people of a given city are willing to authorize greater taxes, they should be permitted to do so. Others seek limited taxing powers without referendum.

Sorry, But Yule Bonus Is Taxable

(Internal Revenue Service)

Q. I have had a recent sharp rise in income. Is it too late to file an estimated return this year?

A. You have until Jan. 15 to file a declaration of estimated tax if the change occurred after Sept. 1.

However, if you file your 1969 return and pay in full the balance due by Feb. 2, 1970, you need not file the estimated declaration.

To obtain a copy of Form 1040-ES, Declaration of Estimated Tax, send a postcard to your IRS District Director.

Q. Is a Christmas bonus taxable?

A. Yes, bonuses are taxable income and should be reported on your tax return.

Employers are required to withhold income and Social Security taxes on bonuses as they do on other compensation paid to employees.

Q. I've got a new maid who doesn't want me to take Social Security taxes out of her pay. What should I do?

A. Explain to your maid that unless these taxes are paid she will not receive credit toward future Social Security benefits.

As her employer, you are legally responsible for seeing that the required Social Security taxes are paid. You may, however, pay her share of the tax for her.

Q. Will the fact that our daughter is getting married in December cause us to lose the exemption we claim for her?

A. If she decides to file a joint return with her husband then you may not claim her exemption.

There is an exception to this rule. If neither your daughter nor her husband is required to file a return but she files a joint return to claim a refund of tax withheld, then you may still claim an exemption for her if she otherwise qualifies as your dependent.

If your daughter files a separate return, you may claim her exemption as long as she meets the other requirements for your dependent.

Q. In my job I often have to take work home. What do I need to prove that part of my home is an office for tax purposes?

A. To qualify for deductions, you must establish that you are required to provide your own

Drug Problem Has Arisen Here, All Should Cooperate to Eradicate It Without Delay

As brought out in news articles and in a Forum letter today, drug pushers are luring teenage Quad-City students into hallucinatory, mind-altering episodes which place them in extreme jeopardy.

Youngsters experimenting with drugs without adequate information or supervision risk distorted perception and judgment, depression, panic and mental derangement, both initially and through recurrences at unsuspected future times.

When their normal reactions and responses are slowed or changed, they are subject to experiences shattering to their self-esteem. Accidental death is a frequent result, from the drugs themselves and from fall accidents, depression, panic and mental derangement, both initially and through recurrences at unsuspected future times.

For those who do not die, physical addiction or psychological dependence is a definite possibility. Once "hooked," the victim usually steals, robs or kills to finance his increasingly expensive habit, leaving numerous indirect victims of drug abuse in his path.

The impairment of health associated with addiction allows few to live beyond their teen years or the 20s—a short and unhappy life span which also creates many bleak years for their grieving loved ones.

The story is so sad, so tragic that all who have any information about specific instances of illegal drug use have a compelling obligation to come forward and provide testimony and evidence to law enforcement authorities.

To remain silent cannot be viewed as humane. The police and from law enforcement agencies "punishment," and delay in spotlighting pushers allows the evil to spread to others.

WARNS PARENTS—DRUGS BEING CONSUMED HERE

To the Editor: Parents, are you aware of your children's friends and whereabouts? If not, start checking.

It's too easy for our youngsters to fall into bad company. Check the families, their activities, even our schools. Drugs are being used. Don't be afraid to investigate.

Parents, don't ever wake up before it's too late. Talk to your children; hear their ideas and problems.

Parents, let's work together and save our children. They need us. Let them know we care. They need our help.

COLLECTORS CARELESS, CLUTTER LOCAL ALLEYS

To the Editor: Without a doubt, all garbage cans should be properly covered.

However, we need cooperation from the garbage collectors. They are not doing their job properly. They are not covering the cans as they are tossed to one side after having been emptied with the lid not put on the can.

Then some other vehicle comes through the alley, runs over the lid and— presto— a garbage can without a lid.

A PATIENT

SOLUTION NEEDED FOR NAMEOKI ROAD HAZARDS

To the Editor: I agree with the Dec. 1 Forum letter about the dangerous intersection on Nameoki road at both Jill and St. Clair avenues.

Thank goodness I am not forced to cross Nameoki road daily, as I assume she must do, since she lives on Wayne.

I am only in that area about

River Festival and the entire St. Louis Symphony Orchestra program

This would be unjustified because the summer concert series was a constructive undertaking, succeeding spectacularly in welding Missouri-Illinois ties and providing unprecedented cultural enrichment through its combination of classical and popular music presentations. The huge crowds which attended despite adverse weather are an eloquent testimonial to the success of the project.

The initial season did result in a deficit, with \$50,000 borne by the Symphony and \$100,000 by the university. This included some non-recurring expenses, and the provision of facilities which will be of general benefit at SIU-SW. And the experience gained in 1969 should enable a 1970 summer series to be planned in such a way that the cost-income ratio improves dramatically.

If SIU officials wish to exercise more direct control over expenditure authorizations, there is no reason why this cannot be arranged. But we hope they do not allow outside pressure to coerce them into dropping what ranks as one of the greatest musical achievements in the long history of the Madison-St. Clair counties area.

At Long Last, Another 'Granite City'

Granite City has not been active in "sister city" programs for a good reason; there is no other Granite City anywhere in the world (although a Camp Granite was established in Vietnam as a unit from the Granite City Army Depot).

But the Air Force reports that Miss Jean Becker, an enlisted woman from Granite City, has "found a home" in alignment with the North American Air Defense Command near Colorado Springs, Colo.

A real "granite city" has been formed in a cave of a granite mountain. It houses an underground city designed to maintain U.S. and Canadian defense operations even if nuclear bombs were being detonated by an attacking force. The center is equipped to be self-sufficient for 30 days without outside help.

Having a unique name has given Granite City a distinction which many communities lack. But local residents would be happy to share the designation with the 11-building mountain communications and control complex, a vital part of the system which serves as the chief deterrent to a world war III.

Excessive Pontoon Road Crossing Delays

Long traffic delays at the Alton & Southern railroad crossing on Pontoon road east of Mayville road are creating morning commuting problems for workers and school students. One day last week a train blocked both Pontoon road and the Carroll road crossing for 25 minutes, standing motionless for a substantial part of that time.

Granite City, Pontoon Beach and Madison county authorities may wish to jointly discuss a plan of action to remedy the situation, including full enforcement of existing laws governing the operation of trains in heavily-traveled urban areas.

How it works? A look at "case histories" suggests that the program is off to a good start.

Robert J. started using barbiturates in reform school when he was 15. At 19, he was a high school dropout—and heroin addict.

John P. has been an addict since he was 19. Now 26, he found his "habit" costing him \$35 a day at the peak of his addiction and he stole checks to support the addiction.

Bob is 30 years old and has a 10-year history of drug abuse. Once he was sent to jail for stealing barbiturates. Merely jailing him didn't work.

Another heroin addict, R. R., had been stealing \$25-\$30 daily to pay for the drug. His family, consisting of his wife and three children, had broken up.

But NARA, there would have been little hope for the rehabilitation of any of these individuals.

Typically, they would have remained hooked on hard narcotics, stolen money to pay for their habit, and been jailed repeatedly.

Likely, they would have been dead within a few years from an overdose of drugs, which happens frequently among narcotic victims.

Moreover, the five, it is estimated, would have stolen \$92,000 in cash or merchandise to support their habit during a period of 36 months.

The equal to the period since they entered the NARA program.

Now, each of them has been freed of his drug habit at least May 1968. Two of them have been rid of their habits since the fall of 1967. All are either

STOPLIGHTS PROPOSED To the Editor: After reading the letter in the Forum Dec. 1, I will take time to voice my opinion on the traffic problem in getting out of or off Main road.

I agree 100% with the writer and think, too, that traffic lights are needed there. The letter wrote that there was something I had planned to do for some time.

I am sorry to say that NARA has been a problem for years and it seems it is going to continue to be unless it is made a priority.

Both the county and state filing periods will continue through Monday, Dec. 15. Candidates who have filed petitions will have through Dec. 20 to withdraw.

County offices subject to nomination and election next year are sheriff, county clerk, treasurer and superintendent of education. In the primary, voters also elect, rather than nominate, state central committeemen, representative committeemen and precinct committeemen.

Nominations to be made in the March 17 primary at state and district levels include U.S. Senator (to fill vacancy); State Treasurer; Superintendent of Public Instruction; Appellate Court Clerk of the 5th district (to fill vacancy); representatives in Congress; State Senators and Representatives in the General Assembly.

Miss Eulalia Hotz, county clerk, announced today that she will follow the same policy as in the past in determining the place on the ballot if more than one candidate files for the same office on the first filing date, and for determining last place on the ballot providing more than one candidate files for the same office on the last filing date.

In such an instance, Miss Hotz said, a blind person will draw names for the ballot positions at 5 p.m. on the first or last day, or both, as the case may be. The drawing will be open to the public.

Miss Hotz said the number of signatures required on petitions filed by candidates for the various offices is as follows: Clerk of the Appellate Court, 5th District, Democrats 1441 and Republicans 1452; state and federal offices, not less than 5000 and not more than 10,000; state central committeemen not less than 100; representative committeemen not less than 100, and precinct committeemen not less than 10.

County office candidates must have a minimum of 263 signatures if a Democratic candidate, or 241 if the candidate is Republican. These figures are based on one-half of one percent of qualified electors of the party vote cast at the preceding general election (November, 1968).

Miss Hotz warned that married women signing petitions must sign with their given name, such as "Mary Doe," and not as Mrs. John Doe. She also cautioned that persons signing petitions must sign only their own name. In instances where a husband signs his wife's name, or vice versa, the signature is illegal. Only the elector's actual signature is valid, she said.

Democratic ballots for the primary election will be on pink paper, and Republican ballots will be printed on blue paper, the clerk said. She pointed out that the ballots for county school board trustees will be on white paper. Specimen ballots

always are printed on canary yellow stock.

Monday also is the first day ahead electors in the U.S. service, or dependents traveling with them, may make application for official ballots. Miss Hotz said. Applications are furnished at all military and naval installations or may be secured from the county clerk's office. The law provides that a relative may sign an application on behalf of the elector in service.

Cougar Cage Squad Defeats Nebraska's JFK College, 93-89

SU-SW's basketball team ran its winning streak to two Saturday night by defeating J. F. Kennedy College of Nebraska 93-89 at the Edwardsville high school gym.
Coach Harry Gallatin's Cougars dominated play after leaving the floor with only a 39-38 advantage at the intermission.
Twice the Cougars raced to 16-point second-half advantages, the last with eight minutes to go in the game.
Captain Bernie Pitts of Alton, off to a slow start against Washington U. and Blackburn College, paced the Cougars with 22 points.
An aching right leg benched SU-SW's great scorer, Rich Essington of Venice, much of the final half. He still ended with 12 points. Teammate Ron Crites scored 18 points. Pitts with 12 and Crites with 10 took rebounding honors.
With Essington benched, Fred Wilke of St. Louis took up backcourt duties for the Cougars and poured in 17 points.

Gray Sparks Venice Five In 76-63 Win

Fessor Gray with 36 points led the Red Devils to a 76-63 victory over Marissa Saturday at the Venice gym.
Gray, a senior, scored 24-20 lead, but Marissa was ahead at the half 36-35 and held a 43-39 third-period lead before Venice staged a 19-10 rally.
Coach Bill Ohlendorf described how his Red Devils changed their style in the final quarter. "Through the game we were getting beaten off the boards. Our press became more effective in the last quarter and we grabbed all the rebounds from their basket, giving them only one shot on their turn with the ball."
Other individual Red Devil scorers were: Cedric Gardner 18, Andrew Johnson 10, Robert Coleman 6 and Douglas Johnson 4.
The local youngsters will travel to Quincy this Saturday for a non-conference game with the Quincy YMCA.

For the Tri-City YMCA Soccer Association awards presentation, Coach Bob Guelker of the SIU-SW Cougars will be the featured speaker at 7 p.m. Tuesday at the Central junior high auditorium.

A gathering of over 300 is expected.

St. Louis Stars' player Pat McBride will comment on color film highlights of the professional soccer season.

Following the program, local association President Harry Breckner will direct, with the help of Guelker and McBride, the awarding of 175 team and individual trophies.

Guelker is president of the U. S. Soccer Association. As the mentor of St. Louis University teams, Guelker coached the Billikens to five NCAA championships.

During the past season as coach of SIU-SW, his team was undefeated until facing St. Louis U. In the NCAA midwestern tournament, Guelker's Cougars lost to Billiken team comprised of players recruited by Guelker.

This year's Billikens have now advanced to the national finals.

McBride, as a metropolitan St. Louis resident, before playing for the Stars was a respected player on several Olympic and World Cup teams.

Wool Marketing Year Will End on Dec. 31

Wool producers are being reminded by Leo Rogers, office manager Madison County Agricultural Stabilization and Conservation (ASC) office, that the 1969 marketing year under the wool and mohair program ends Dec. 31. Payments for the current marketing year—1969—are based only on marketings completed during the year. Marketings completed after Dec. 31 will be in the 1970 marketing year and not eligible for payments until early 1971.

Rogers is urging producers to be sure all 1969 sales details are completed by the end of the year, including passing title to buyer, delivery of the wool or mohair to the buyer either actually or through documents transferring control to the buyer, and having available all information necessary to determine the buyers total purchase price.

Request for 1969 marketing year payments under the National Wool Act may be filed with the Madison county ASCS office at any time. Incentive payments under the wool program are based on the average national price for marketings during the year.

Payments for the 1969 marketing year are expected to begin in April 1970.

SPECTACULAR BLAZE, believed started by a dust explosion in a brick silo at Union Starch & Refining Co., about 1907, was vividly captured in this photograph taken by Ivan Carr, a great-uncle of Mrs. Michael J. Devine and found by relatives in Pinckneyville. Recalling stories about the fire, told in later years, Mayor Partney said a spectator climbed the pipe, at left, to rescue a badly-burned workman hanging from an opening near the silo top.

More Funds to Up Allotments Of Food Stamps

Expansion of the federal Food Stamp program by the U. S. Department of Agriculture, providing increased allotments along with other improvements, will result from President Nixon's recent signature of the Agriculture Appropriations Act providing \$610 million for the program, it was announced by Secretary of Agriculture Clifford M. Hardin.

"These increased funds will enable us to make significant improvements in the program," he said, "and to make major advances in our urgent drive to end hunger in the United States."

A four-point program of action to be undertaken to improve operation of the Food Stamp program was outlined by the secretary, to include:

1. Coupon allotments under the program will be changed to assure that low-income participating families will be able to purchase a more nutritionally adequate diet. This will be accomplished by providing each participating family enough food coupons to pay for the U. S. Department of Agriculture's "economy diet" adjusted to compensate for current increases in the level of retail food prices. For a family of four this will amount to \$100 compared with a current minimum of \$58.

2. To reduce payment. The amount that a family must pay for its stamp allotment will be reduced as far as possible within the law's present requirement that this payment must not be less than a family's normal food expenditure.

3. The department's Food and Nutrition Service will make every effort to expand the program to many new areas, including those now participating in the Community Distribution Program which wish to change to food stamps. 4. Outreach efforts will be accelerated in counties and cities that are currently in the Food Stamp program, to acquaint them with these major changes in the program in order to increase the participation level among those eligible to take part.

Details of the plans for expansion and the new payment schedules are now being worked out and will be announced shortly, Hardin said.

Juvenile Bail Right To Be Tested in Court

The right of a juvenile to post bail pending an appeal is expected to be argued this week in a test case to be initiated in the court of Circuit Judge James O. Monroe at Edwardsville.

It involves a Granite City girl, 14, being held in the Madison county juvenile detention center, pending placement in an Illinois Youth Commission facility.

As the Illinois juvenile code has no provision for the release of a child on bail in appeals cases, the ultimate ruling is expected to be made by the State Supreme Court.

The order to commit the girl was issued by Juvenile Judge William Beatty after she was placed in the detention home when she was found in need of adult supervision.

Her case is being handled by the Legal Aid Society which filed a writ of habeas corpus.

Driver Ticketed

Minnie L. Hix, Florissant, Mo., was charged with speeding and driving without a valid driver's license, registration and transfer of title at 4 a.m. Friday at 1700 Madison avenue. She was released on \$125 cash bail.
